# PROJECT REPORT

## CERTIFICATE

This is to certify that the project work entitled "EFFECT OF GIBBERALIC ACID ON GERMINATION AND SEEDLING GROWTH OF WHEAT (*Triticum aestivum* L)", submitted by Sri PRABAL PURKAYASTHA, Roll No- 22520052 Registration No- S1626734 of 2019 in his work and has been done in the light of evaluation comments under my supervision.

It is recommended that this project report be placed before the examiner for evaluation.

(  22/5/19 )

Dr. Susmita Chakraborty

Supervisor of the project

Dept of Botany

Tinsukia college, Tinsukia

Department of Botany  
Tinsukia College

# ACKNOWLEDGEMENT

I wish to acknowledge my particular indebtedness to respected teacher Dr. Susmita Chakraborty of Botany Department for her active guidance and help in the development and completion of this project work.

I am obliged to record my thankful appreciation to Dr. Sanjukta Gohain Baruah, Head of the department of Botany, Tinsukia College.

# CONTENTS

## 1. Chapter-1. Introduction

page no

1.1-General description

1.2-Gibberellins

1.3-Germination

1.4-Gibberelins on germination and growth

## 2. Chapter-2. Materials and Methodology

2.1-Seeds

2.2-Chemicals

2.3-Sterilization

2.4-Preparation of chemical solution

2.5-Seed treatment

2.6-Seedling growth

2.7-Analysis of results

2.8-Critical difference

## 3. chapter-3. Results and Statistical analysis

3.1-Effect of gibberellic acid on germination  
and seedling growth of wheat.

3.2- Bar diagrams

3.3-Photographic evidence

3.4-Conclusion

## 4. Reference

### 3.3 PHOTOGRAPHIC EVIDENCE

*Triticum aestivum* (wheat)
